November 4, 2020

MCA Learning Community:

In an effort to keep our learning community informed, we are providing another health update. This morning (Wednesday, November 4, 2020) we were informed that one of our district staff that was quarantined due to a possible COVID exposure - tested positive. The Department of Health and our nursing staff have been contacted and we believe that all district level quarantines and positive cases are directly related. No additional staff members would need to quarantine after this latest positive case. All district staff that are quarantining do not have direct day to day contact with students and teaching staff.

We will continue to provide further updates as warranted.

Sincerely,

Pete Cheddar
