

MCA Learning Community:

This evening our local newspaper put out a story concerning an individual who allegedly made threats about our school district on August 11, 2022.

On this date, August 11, 2022, our district was notified by local law enforcement of the individual and the alleged threat. At that time there were no students in our building as it was over our summer break. Law enforcement apprehended the individual later that day. Any additional questions concerning this individual should be referred to the Mount Carmel Township Police.
