School District Areas of Improvement and Planning - Indicators

Suspension/Expulsion by Race/Ethnicity (Indicator 4B)

Indicator not flagged at this time.

Disproportionate Representation by Race/Ethnicity (Indicator 9)

Indicator not flagged at this time.

Disproportionate Representation by Race/Ethnicity/Disability (Indicator 10)

Indicator not flagged at this time.

Timely Initial Evaluations (Indicator 11)

Indicator not flagged at this time.

Secondary Transition (Indicator 13)

Indicator not flagged at this time.

Graduation (Indicator 1)

Indicator not flagged at this time.

Drop Out (Indicator 2)

Indicator not flagged at this time.

Assessment (Indicator 3)

Improvement and Planning Activity
3A -- Participation Rate: Develop a communication plan to ensure that parent/ guardians are aware of the assessment dates and times. This is especially important for parents of students that attend e-Learning courses. Parents are sent a letter, there is an all call and text, email reminder, and then individual phone call reminders.
3B -- Proficiency Rate: The District will use PVAAS data to view and monitor growth in student with disabilities who participate in PSSAs and Keystones.

Education Environments (Indicator 5)

Indicator not flagged at this time.

Parent Involvement (Indicator 8)

Indicator not flagged at this time.

Early Childhood Transition (Indicator 12)

Indicator not flagged at this time.

Post-School Outcomes (Indicator 14)

Indicator not flagged at this time.

Resolution Sessions (Indicator 15)

Indicator not flagged at this time.

Mediation (Indicator 16)

Indicator not flagged at this time.

School District Areas of Improvement and Planning - Monitoring

District has completed all monitoring corrective action/improvement plans.

Identification Method

Identify the District's method for identifying students with specific learning disabilities

Discrepancy Model

Building Name	AUN	Branch Number	RTI	Approved RTI Use

Non-Resident Students Oversight

1. **Is your district currently a host district for a 1306 facility?**

   No

1. **Describe the host's educational oversight to ensure students with disabilities are educated in the least restrictive environment while in the 1306 facility? (If not a host, answer as if you were.)**
   If such a facility would open within the Mount Carmel Area School District, the district would be responsible for educating those students as deemed appropriate for the students. A plan will be developed in conjunction with the Central Susquehanna Intermediate Unit, if further support is deemed necessary, in order to assure FAPE and LRE. Each case would be reviewed individually and the IEP team would first consider education in the public school, including transportation to the district, and then back to the residential facility, to participate in education and any other activities, with supports and services as deemed appropriate. If there is a court order or medical mandate stated the student cannot leave the facility's campus, the student would be educated at the facility. Additionally, the district recognizes that students in residential facilities/ institutions within the district boundaries may arrive already identified. The host district will obtain and follow the student's current IEP from the district of residence, conduct reevaluations according to timelines, revise the IEP if needed, and keep the district of residence informed of the student's status.
2. **Describe the district's procedures for communicating with 1306 facilities and how the district ensures a successful transition back to school?**
   If a 1306 facility existed within the Mount Carmel Area School District, the district would request records from the student's district of residence. Present levels in Reading, Math, Writing, behavior, and other areas of functional performance would be obtained in order for Special Education services to begin at the facility as soon as possible. The LEA of the district of residence will be invited to any reevaluation or IEP meetings held while the student is residing at the facility. Progress monitoring will be completed and communicated to the district of residence. As students are transitioning out of the program to a home district, a team meeting will be held to include parents, interagency providers, and the home district in order to ensure a successful transition to each individual student's home district.

Incarcerated Students Oversight

1. **Does the district have an adult correctional facility that houses juveniles within its geographical boundaries?**
   No

1. **Describe the system of oversight the District would implement to ensure that all incarcerated students who may be eligible for special education are located, identified, evaluated and when deemed eligible, are offered a free appropriate public education (FAPE).**

Least Restrictive Environment

1. **Review the district's most recent data for Least Restrictive Environment. Highlight areas of improvement.**
   The information below is data taken from the Penn Data SEDRs in the area of: Students educated in the regular classroom 80% or more of the day. The 2022-2023 data shows that Mount Carmel Area did not meet target in this area, but we are within 1% of the target 61.4%. Mount Carmel Area did meet the target for the 2023-2024 school year. Increased efforts have been made in the area of inclusion and co-teaching practices, including professional development and training sessions.
2. **What universal practices does the district utilize to address the academic and social/emotional needs of all students in need of accommodations to their learning environments?**
   The Child Study Team, Student Assistance Program (SAP), and MTSS are in place to address the academic and social/emotional needs of all students in need of accommodations in their learning environments. Multi-Tiered System of Supports at Tier 1 and 2 are in place in grades K-12. Regular education teachers discuss struggling learners during child study team meetings, and develop a plan to accommodate students or use interventions in the classroom. The district employs Title 1 and Remediation Specialists in the areas of Reading and Math in order to address any academic needs of all students. Mount Carmel Area uses SWPBIS , in which the Tier 1 and Tier 2 (mentoring and check in/ check out) are utilized at the Elementary level, and Tier 1 at the Secondary level. Plans are in place to expand the Secondary level to Tier 2 in the 22-23 school year. An MTSS coach was added to the staff during the 2024-2025 school year, as well as using Hempfield Behavioral Health for student groups (CBITS and Bounce Back program). Additionally, the school district purchased a social/ emotional screener for students.
3. **Describe the academic programming and training efforts the LEA utilizes to ensure meaningful participation of students with disabilities in the general education curriculum.**
   Mount Carmel Area takes a collaborative approach, including parents, special education staff, regular education staff, LEA Representatives, and outside agencies if needed to ensure that students with disabilities are meaningfully participating in the general education curriculum. The CSIU has been training, coaching, and collaborating with the District as part of the Child Study Team, Autism Initiative, and Co-teaching models. PaTTAN is providing training, consultation, and technical assistance for the Autism Initiative that the District is participating in the Elementary and Secondary School levels. Autism Initiative program training, site visits, coaching, and collaboration is part of this program. The District has adopted effective practices to support students with disabilities in the general education setting. District policies and procedures have been implemented to ensure that they are aligned with an inclusive approach to supporting students with Individualized Education Plans. The District allocates sufficient resources for personnel and organizational support to sustain a comprehensive inclusive approach to the delivery of special education services. District policies facilitate the active participation of students with disabilities in school sponsored clubs, extracurricular activities and events. The District supports ongoing professional development for personnel to increase their capacity to implement a free and appropriate placement for all students. Strategies and activities related to inclusive practices for administrative staff, teaching staff and families is ongoing. Families are also invited to participate in District sponsored professional development activities focused on inclusive education. In addition, the District has adopted the co-teaching model at the Kindergarten through third grade levels, as well as in Math and ELA at the 7th and 8th grade levels. The co-teaching model professional development was provided by the CSIU, which entailed a series of trainings with on-site visits/ coaching in between the training sessions.
4. **Describe the supplementary aids and services the LEA utilizes to ensure meaningful participation of students with disabilities in extracurricular activities.**

Mount Carmel Area has a wide range of extra-curricular activities that include sports, clubs, groups, community sponsored programs and activities. All students are encouraged to participate in these activities regardless of their disability status. The district strives to support students with disabilities in participating in activities to the maximum extent possible with their non-disabled peers. In addition, a preliminary plan is in place to add an interscholastic unified indoor bocce team as a varsity sport for students with and without disabilities. The district believes that all students should receive and be supported in all extracurricular opportunities, regardless of level or category of need.

5. **Describe the District procedures, which ensure that, to the maximum extent appropriate, children with disabilities placed in private institutions are educated with non-disabled children and have the opportunity to participate in district lead extracurricular activities?**
   When a multi-disciplinary team makes the decision to place a student in a private institution, the LEA Representative ensures that the student and family is aware of district lead extracurricular activities. Students placed in a private institution are considered Mount Carmel Area students and are given information about extracurricular opportunities offered at the District during IEP meetings.
6. **Discuss the district's need to build capacity and expand programs and services in an effort to provide a continuum of services. (Consider the out of district placement chart)**
   When reviewing the out of district placements at least annually, services and staffing are taken into consideration. Early Intervention and caseload predictions for the upcoming year are used to identify needs of district programs. Existing staff are assigned to meet current needs, build capacity, and expand programs and services according to the level of need of identified students. The multi-disciplinary team makes every effort to design programming to fit the needs of students that move into the district or is identified with specific, exceptional needs. When the multi-disciplinary teams seeks outside placement, it is to ensure that the student's needs are met. Transition back to the district is discussed at least annually during the student's IEP meeting.

Behavior Support 113.2.pdf

1. **How does the district support the emotional, social needs of students with disabilities?**
   The Mount Carmel Area School District employs a School Wide Positive Behavior Support Plan (SWPBS). This is our Tier 1 approach used to proactively define, teach, and support appropriate student behaviors. The school benefits from creating this more positive environment, which aids in more successful learning. The district and school community teaches the expected behaviors across all settings, including the classroom, hallways, cafeteria, recess, restrooms, dismissal, and assemblies. Students exhibiting positive behaviors are rewarded. At the Elementary level, Tier 2 Positive Behavior Supports (PBS) are in the form of Check In/Check Out or Mentoring. Each student identified as needing Tier 2 supports is assigned to a specific staff member on the Tier 2 team. The district also uses APL strategies, where positive behaviors are modeled and students are retrained if a negative behavior occurs. Retraining is the process of demonstrating the proper, positive behavior that should have occurred and having the student put that behavior into practice. When the Mount Carmel Area School District's IEP team determines a student's behavior is likely to disrupt learning, the behavior is addressed in the student's IEP. Programs to manage or to change behavior are in place. A functional behavioral assessment (FBA) is completed to determine the cause of the behavior, what is maintaining the behavior and positive approaches to help children manage or correct their behaviors. The Mount Carmel Area School District routinely updates the functional behavioral assessment and positive behavior support plan to ensure that the student's behavioral needs are being met. In addition, two guidance counselors per building, a social worker, and school psychologist are available to address emotional and social needs as well as crisis situations. A School Based Behavioral Health team is located in each building to provide mental health counseling, medication management, and psychological evaluations if needed to students identified as being eligible for the service. A CASSP team is available to guide students and families to out-patient mental health programs available using private insurance or medical assistance. These team meetings are held on the MCASD campus.
2. **Describe training provided to staff in the use of positive behavior supports, de-escalation techniques and responses to behavior that may require immediate intervention.**
   Staff are trained in APL techniques and School Wide Positive Behavior Support. Refreshers are offered annually. Special Education staff are trained in writing Positive Behavior Support Plans based on Functional Behavior Assessments, which are embedded in the IEPs of students that exhibit behaviors that impede their learning or the learning of others. A select team is certified in Safe Crisis Management, which includes specific training on de-escalation techniques as part of the training.
3. **Describe the district positive school wide support programs.**
   Mount Carmel Area's School-Wide Positive Behavior Support Program, Tornado PRIDE (Preparation, Respect, Integrity, Dedication, Effort). This is a school wide system of supports that includes proactive strategies for defining, teaching, and supporting appropriate student behaviors. The

school will benefit by creating a positive environment, which will aid in more successful learning. The school focus is to shift the emphasis from being reactive in addressing behaviors and social skills to being proactive in prevention. We, as a district and school community, will be teaching appropriate behaviors through modeling, teaching, and the use of positive rewards. Students who are caught doing well will be rewarded for such behaviors (Tornado Tickets). This program has a large emphasis on respect and integrity for our students.

4. **Describe the district school-based behavior health services.**
   The District has an in-house School Based Behavioral Health team located in each building. SBBH Team is based in the school, but delivers services to the child and family in the school, home, and community settings.
5. **Describe the district restraint procedure.**
   The District has a team of staff members, including trainers, who are trained and certified annually in Safe Crisis Management (SCM). SCM includes de-escalation techniques. The use of physical restraints are used as a last resort. The least restrictive form of restraint necessary will be used when a student is in need of crisis intervention and exhibiting behaviors that put the student or others in danger of injury and other less restrictive techniques have proven to be less effective. If a restraint is carried out with a student, those involved must complete a report and submit it to the special education office. Documentation of the use of physical restraints will be reported to PDE, as required quarterly. Parents and administrators are informed of the restraint immediately. An IEP meeting will be convened within 10 school days of the restraint, unless the parent, after written notice, agrees in writing to waive the meeting. During the IEP meeting, the team shall consider whether the student needs a FBA, re-evaluation, a new or revised PBSP, or a change in placement to address the inappropriate behavior.

Intensive Interagency

Please address any areas of concern with students who are placed on Instruction Conducted in the Home or who are at a substantial risk of waiting more than 30 days for an appropriate educational placement.

If the District is having difficulty placing a child into an educational placement, program, or service, the LEA will notify the regional interagency coordinator, as well as the local interagency coordinator at the CSIU. Instruction in the Home may be used as a short-term solution until another educational placement can be provided. This can be face to face instruction, virtual instruction or a combination of both in-person and virtual instruction. The Mount Carmel Area School District has been successful in providing FAPE and related services to all students in compliance with the Pennsylvania State and Federal regulations. The programs that are currently in place include related services that help benefit students in special education programs (special transportation; speech, physical and occupational therapy; school health, transition services, psychological counseling; hearing services; and other services as needed). Upon a parent request, an independent evaluation can be obtained. It is the Mount Carmel Area School District's goal to ensure that children with disabilities are educated to the maximum extent appropriate with children who are not disabled. All resources are available to all students. The District makes every attempt to find placement for students with severe, unique or specialized needs.

- There are a full range of services, programs and alternative placements available to the school district for placement and implementation of the special education programs in the school district.
- The school district has adopted a child find system to locate, identify and evaluate young children and children who are thought to be a child with a disability eligible for special education residing within the school district's jurisdiction. Child find data is collected, maintained, and used in decision-making. Child find process and procedures are evaluated for its effectiveness. The school district implements mechanisms to disseminate child find information to the public, organizations, agencies, and individuals on at least an annual basis.
- The school district has adopted policies and procedures that assure that students with disabilities are included in general education programs and extracurricular and non-academic programs and activities to the maximum extent appropriate in accordance with an Individualized Education Program.
- The school district will comply with the PA Department of Education, Bureau of Special Education's revision notice process.
- The school district follows the state and federal guidelines for participation of students with disabilities in state and district-wide assessments including the determination of participation, the need for accommodations, and the methods of assessing students for whom regular assessment is not appropriate.
- The school district affirms the Pennsylvania Department of Education that funds received through participation in the medical assistance reimbursement program, ACCESS, will be used to enhance or expand the current level of services and programs provided to students with disabilities in this local education agency.
