July 9, 2025

Important Notice for Students Entering 7th and 12th Grades:

The Pennsylvania Department of Health requires that all students entering 7th grade receive vaccinations for Tetanus, Diphtheria, and Acellular Pertussis (Tdap), as well as the Meningococcal Conjugate Vaccine (MCV). Students entering 12th grade are required to receive a second MCV vaccine. Mount Carmel Area School District encourages you to contact your doctor to verify that your child has received these vaccinations or to schedule an appointment for them. Please note that Pennsylvania Department of Health regulations require students to be fully vaccinated at the start of school in August.

Please contact the School Nurse, Lisa Trask, at 570-339-1500 ext. 3129 with any questions or concerns. Feel free to leave a message, and the nurse will return your call.
