Projects outside the scope of the current project:

#1. **Elementary HVAC Project (Summer 2025)**

*** *Our district was awarded a $300K Public School Facility Grant award that will go towards the Elementary HVAC project. (Our district must match $75k) Total: $375k. We applied for full funding for the project and unfortunately were awarded a lower amount - must like other local school districts.*

#2. **Facility Bollards (Summer 2025)**

*** *Our district received PCCD Grant award that will take care of the cost of installation. Bollards will be placed in front of each building entrance, high school gymnasium entrance, and in between the high school and elementary. No cost to district*

#3. **Silver Bowl Stadium Video Board (Summer 2024)**

*** This project was fully funded by advertising donations

March, 2025

District approved Energy Savings (GESA) project with McClure Company to update all classroom HVAC units, New Classroom Ceilings, New flat panel LED Lights. Cost - $5,972,441. *(Projected 20 year district savings of $299,261.00)*

District will use the **$375,000** Public School Facility Grant award towards Fan Coil Upgrades as part of the overall project.

Bollard Installation (Summer 2025)

Bollard Installation cont...

Bollard Installation cont…
